

# LEEUWENBURGH ANGUS

*31<sup>st</sup> Annual* SALE  
**MARCH 15, 2022**

BALOG AUCTION . LETHBRIDGE, AB . 1PM

[leeuwenburghangus.com](http://leeuwenburghangus.com)

# Welcome

It's once again our pleasure to welcome you to our 31st Annual Bull Sale. I'd like to take this time to first off thank our customers and friends who have given us their unwavering support in this past year and over the last thirty. We are very thankful and feel truly blessed to be involved with such great people that support our passion in Angus cattle.

Our program has always been focused on providing a superior product for the commercial cattleman and woman. Whether you sell your calves in the fall, feed them through to a finished product, or have a bred heifer program, we are confident in the fact that we have the right bull for everyone's needs. Our own commercial herd has taught us important lessons in feed efficiency and functionality, and we have modelled our purebreds to best suit these challenges. We are not here to produce show cattle but instead remain focused on maternal traits, performance, and other basics, like feed efficiency, fertility and productivity.

This bull offering is one we are very excited about and are confident in the mama cows that are behind them. We feel like we have been able to increase our volume of bulls without sacrificing quality, as is evident in the offering this year. They have been developed responsibly on a high roughage ration allowing them to express their genetics, but also with the goal that they will be an athletic breeder for years to come. They are raised in a large pen to force them to get plenty of exercise and allow us to constantly evaluate the bulls as they travel.

We ask that you take the time to evaluate the cattle and do not hesitate to contact us with any questions or to discuss your breeding goals and needs. We look forward to your call and hope to see everyone on March 15th.

Sincerely,

*Dennis Leeuwenburgh*

Dennis Leeuwenburgh

Welcome Fellow Cattlemen to the Leeuwenburgh Angus 31st Annual Bull Sale and what a powerful offering of breeding bulls!

Once again the Leeuwenburgh program will offer to the purebred and commercial industry the very best of the Angus breed. New exciting genetics on the one side and proven successful genetics on the other.

Leeuwenburgh's have been leaders in the use of the very best AI genetics on the continent. Their continued emphasis on performance, calving ease and easy keeping cattle is evident in every successful program using Leeuwenburgh bulls.

Repeat customers are a key factor to a successful breeding program and that is where Leeuwenburgh's shine. Very few outfits have the number of repeat buyers as do the Leeuwenburgh's.

Join us at this powerful sale and move your program ahead with a Leeuwenburgh bull.

See you at the sale!

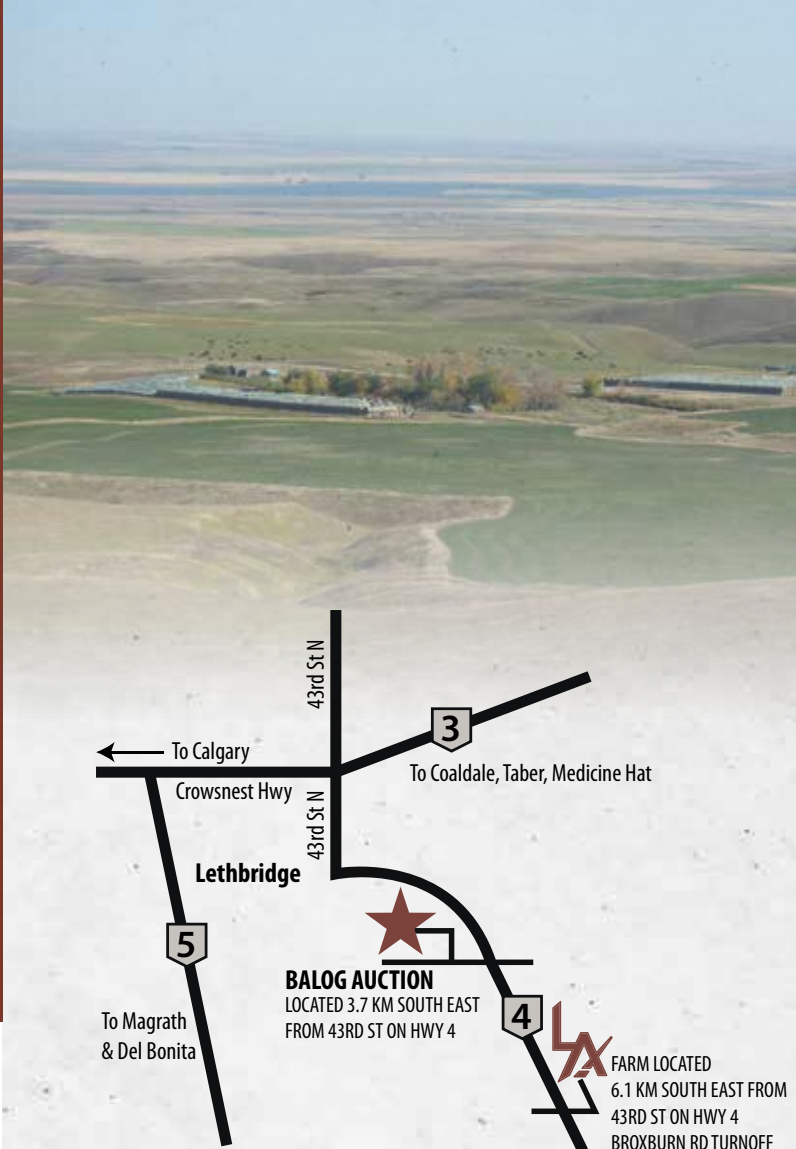

Respectfully,

*Bob Balog*

R.C. (Bob) Balog

## TERMS & CONDITIONS

Cattle will sell under the standard terms & conditions put forward from the breed association and Balog Auction. These are available upon request.

## ALL BULLS ARE FULLY TESTED AND 100% GUARANTEED NO BULLS SOLD PRIOR TO THE SALE!

Everything possible will be done to assure that every bull in this sale will be a breeder. Dr. Mitch Oviatt, (Ranch Docs, Lethbridge) will scrotal measure and physically evaluate every bull. Any animal that has not proven itself within 6 months of sale, (September 30, 2022 if in healthy condition, may be returned to the seller at the buyer's expense. The seller reserves the privilege of trying for a 6-month period to prove the animal a breeder. The seller at his option may either return the purchase price or replace the animal with another of equal quality in full settlement and satisfaction of all claims. Any complaints regarding any animal in this sale shall be made to the breeder. All complaints must be reported in writing by the buyer to the seller within 6 months and any animal returned must be free of disease and in good health.

## CATALOGUE INFORMATION

All information is up to date as of publication date. Pedigree's and EPD's are supplied by the Canadian Angus Association, and all other information has been supplied by the seller. Information in this catalogue is believed to be accurate, but any errors discovered in the catalogue, will be corrected by announcements, from the auction stand at sale time, and such corrections will take precedence over the printed matter in this document.

## IN - HERD SEMEN INTEREST

Leeuwenburgh Angus reserves the right to draw semen on any bull sold at the buyer's convenience and our cost.

## DELIVERY - \$100 CREDIT IF BULL IS TAKEN HOME SALE DAY

Assistance will be given in making delivery after the sale.

## PRESALE LUNCH

Join us for lunch at 11:30am Sale Day

## INSURANCE

Available at Balog Auction Services - Maureen- 403-320-1980  
 We strongly suggest you insure your bull purchases.

First Down has earned a complete confidence as a maternal herd bull. First daughters are beautiful productive young cows. The kind that produce as good as they look. We feel strongly about First Down's ability to raise future donors like his dam 87R and his Elite grandam 95J. Correct in body design, his first sons sold very well, and many are rising to the top of the pen again. His progeny have natural shape and are very balanced. He has proven to be a reliable calving ease herd bull, with progeny averaging 78 pounds, and the calf health and vigour is second to none. No doubt a bull that will have a heavy influence on some major programs south of the border and in our herd for years to come. Owned with Dvorak Ranches.

When we had the opportunity to buy 148F in 2019, it did not take much thought. If you study the history and production of the cows in his pedigree you will soon see why we valued this bull so highly. A Cobra son whose 87X dam is a high-quality donor. High Pressure's dam was a high selling cow at the T-K dispersal and is a donor cow at Hawkeye Ranching. A moderate birth bull, that averaged 75 pounds on his first calf crop. His progeny are very good footed and possess a beautiful skull shape and blood red hair coat. An exceptional herd bull that adds maternal excellence. His first daughters are in production and have met our high expectations.

A bull that has seen heavy use thru AI in our program and has done a good job of adding length, growth while keeping birth weights in check. His dam was a high selling cow at the U2 dispersal and his first daughters here have the same look with a touch more frame than 439A. His sons are easy moving ranch bulls that are sure to impress on sale day

McLovin was added to our sire lineup through AI in 2019. He was the feature bull at Topham's sale and was admired for his sound structure, great foot, and abundance of natural muscle. He has stamped his calves with these exact qualities. After seeing his dam, we knew this was a bull we could confidently breed into our herd. His daughters look very promising with loads of cherry red hair, depth, shape, and true Angus character. The first ones to calve this year have great maternal instincts, perfect udders and teat size

Electric is a bull that we are excited about for many reasons. He passes on his natural muscle like no Red Angus bull we have used. His dam's track record was exceptional and was lost way too early. Electric's grandam was designated Premier in 2012 by the CAA, with a 107 ratio on 6 calves. His daughters have perfect udders and are turning into potent producers. His stats combine top of the breed calving ease, with top 1% growth for both weaning and yearling. Electric is now deceased, and we are down to our last ten straws of semen on this powerhouse bull.

A super stout, heavy muscled outcross herd sire at Golden Sunset Ranch that we were able to acquire in 2020. A very unique herd bull being built as wide as a truck with the ability to cover a large group of cows. Unique in blood as well featuring HF Tiger and the DMM Essence cow family. His progeny are solid in structure with loads of heel, muscle and hair.

A sale feature in our 2019 sale to Ross Ranches. A unique individual in pedigree, mixing some of our latest out cross bloodlines with some time proven cow making genetics on his maternal side. His dam is the ideal angus cow, with superior foot quality and has been a successful donor cow for us the couple of years. The Chateau and Make My Day cows always rise to the top of the herd in terms of fertility, function, and longevity. Quadtrac himself proved to be an excellent breeder and has passed on his length, growth, and dark red hair coat to his progeny.

A red carrier John Wick son that has an outcross pedigree and carries a lot of the same qualities as Wick but adds in some mating versatility for us with Rito 707, Predominant, and Bismarck in the maternal side of the pedigree. Good cow family that we are confident in. Progeny have very good feet and have excelled on feed. Two of his very first red sons sell!

A big time Payraise son that is owned by Cameron Colony and we used thru AI. A combination of calving ease and good yearling growth. He was the number one ranked bull of last years group with a yearling ratio of 131, a quality trait he has certainly passed on to his progeny. His dam is easy fleshing front pasture dam that would be hard to find a hole in and his maternal grandam VWB Pride Lady 124T is a premier dam with the CAA with a ratio of 106 on 9 calves. His full sister looks to be one of the very best bred heifers to calve with outstanding hair, foot quality and is dropping a beautiful udder

An absolute performance stud from ABS that we have used thru AI. The top 1% ranked bull for both weaning and yearling epds. His progeny have been consistently long spined with added dimension and muscle. They are good natured cattle and really impress with there vigor and health. A great option for ranchers that get paid by the pound off grass or finishing out.

- Altitude will be sure to grab your attention with his cherry red hair coat and herd bull attitude, superior length, depth, and style
- A very well balanced bull with very sound structure that would be a powerful addition to any program
- One of the very best cow makers in the entire offering
- His dam is an ideal brood cow with a nice front, huge barrel, and hip, yet very soft made with a perfect udder, she has a 106 ratio on 4 calves
- Maternal grandsire Flex 79B is making a habit out of producing potent high producing females at our place and at Lonestone Farms

- A ranch favourite from an early age and a herd bull prospect that truly could move a herd a couple steps forward
- Gentle natured bull with extra length, depth, and softness
- This is the exact kind of animal we strive to produce, balanced, multi trait bulls
- Recommended for heifers and cows, Undercover 94J was the leader of the entire calf crop weaning over 900lbs for a ratio of 123
- His moderate, wedge shaped dam is easy fleshing with a beautiful udder and has smashed home runs on the first two calves of her young career
- She is from the same mating as Infrared 47H that sold to Lust's in last year sale and the 3 feature ET bulls in this years offering- LWNBRG 12J, LWNBRG 26J and LWNBRG Adrenaline 28J
- Maternal brother sold to Dykshoorn's in 2021
- Keep every daughter and build a superior cowherd

DAM-IMPACT 96B

HARVESTOR 134G - MATERNAL BROTHER

- This pressure son is built like the cow family that raised him
- Extremely stout and sound, this guy will leave a trail of replacement females that will set a program up for years
- Common sense cattle never go out of style and this stud is exactly what a cowherd needs to be profitable
- Wean index of 112
- Four maternal sisters working in our herd and a brother to JP Harmen
- Dam has a ratio of 106 on six calves

- Electric has done it again with this big powerful, heavy gaining son
- Scale crushing performance with as much size, bone, and pure power you can pack into one
- Huge actual weaning of 920 in a desert dry year for a ratio of 115
- If you sell by the pound or finish cattle these Electric genetics will certainly give you the advantage a cattleman needs in times where the margins are thin

- Range Road has herd bull written all over him, bold thickness and shape, volume, and maturity at an early age
- Modest birth bull with authentic breed character and superb structure
- Recommended for heifers and cows, this ideal breeding bull will fill up the replacement pen and will add incredible value to a breeding program

# LOT 29

- Adrenaline has been a favourite and an absolute standout of this incredible flush since day one
- Phenotypically and genetically complete and is truly more than we could've expected when we mated Electric with the 150D dam
- Majestic herd bull with length, muscle, rib shape and structural balance
- His full sisters are a sight to behold and give us great confidence that this herd sire prospect is one of the best cow makers we have in the offering
- We believe Adrenaline 28J will carry on the torch in our breeding program from his deceased sire and is the kind to build a cowherd around
- The maternal side of his pedigree is stacked with some of the most broody, easy fleshing cows we have had on the ranch, great grand dam raised the \$20000 Catalyst 30Y herd sire to Count Ridge
- His moderate donor dam sports a perfect udder and has an abundance of depth with sound structure and is a daughter of the 90B bull that has 50 daughters working in the MC Quantock herd
- Full sister 76F raised LWNBRG Undercover 94J the heaviest weaning bull of the entire calf crop this year for an index of 123, and had a son that highlighted last year's sale to Dykshoorn's
- Her brother Riptide 143D was a sale feature in 2017 to Crystal Springs
- The Electric sons have been well accepted in past sales with herd bulls working at Six Mile Ranch, KC Cattle, Beckman's, Lost River, Powder Creek, Wolfcreek, and a full brother was sale highlight last year to Lust Farms
- **RETAINING SEMEN INTEREST**

- The mating over Harvestor and the CAA Premiere 85B has been one of our most powerful and predictable over the last number of years
- Rancher approved beef bull with body and balance that is built right from the ground up
- Take advantage of the elite growth and cow power in this bulls blood
- Full sisters working in our herd have stellar phenotype, impeccable udder, and foot quality
- Full brothers working at French's, Ben Cooksley, and a powerhouse from last year sale to Ed Schuld
- Dam is one of our very best posting a ratio of 108 on 10 calves and bred back 10 days after flushing again this year
- Grandam 18W is the dam of our herd sire Broxburn 68B, calved early again at 13 years old and is also CAA Premiere posting a ratio of 106 on 11 natural calves

- A pair of powerful twin brothers from the mating of Dually to our front pasture 90X cow
- Solid beef bulls that are thick, rugged built with massive volume and dimension, which are all traits that are now becoming expected from the Dually sire
- They will sire market topping steers and we have seen for ourselves how the Dually progeny convert feed in the feedlot
- Superb dam weans a high percentage of her body weight each year, has a perfect foot, good udder quality and records a weaning ratio of 105 on 10 calves
- Full brother sold last year to Trautman Cattle Co

# BOLT EPD'S

Genetic Evaluation by the Red Angus Association of America

If a Lot # is missing in this list it means the CAA does not have BOLT EPD on file for this animal at this time.

## CANADIAN AngusONE EVALUATION

Please note that the EPDs listed in this sale catalogue are the product of the new Canadian AngusONE Genetic Evaluation. These EPDs are calculated by Angus Genetics Inc in partnership with the American Angus Association. Therefore, EPDs for Canadian Red Angus, Canadian Black Angus, and American Black Angus animals are directly comparable to each other. This is a completely new base for Canadian Red Angus however, therefore, please be advised that the EPDs are not comparable to last year's EPDs for Red Angus. These EPDs are on a completely different scale, so please familiarize yourselves with the new Breed Average and with the new threshold number for traits of importance to you. The right EPD for you will depend on your cow herd, your management, and your breeding goals. For more information on using EPDs please contact your Association, the Canadian Angus Association, at 1-888-571-3580, and for more information about the genetics offered in this catalogue and what might best suit your breeding needs please contact the seller.

**EPD:** Expected Progeny Difference is the prediction of how progeny of each animal are expected to perform relative to the progeny of other animals in the Angus breed. As data continues to accumulate, accuracy levels rise and EPD's can shift accordingly.

**BW:** Birth weight is related to calving ease. Lower birth weights tend to reduce the incidence of calving difficulties. Lower birth weight EPD is more desirable for heifers.

**WW:** Weaning Weight is an indicator of growth from birth to weaning (205 days of age). During this period, the calf's growth is influenced by its mother's ability to produce milk and its own ability to grow.

**YW:** Yearling Weight is an indicator of growth from birth to yearling (365 days of age). The calf's growth during this period is influenced by its own ability to grow plus its mother's maternal abilities. It is the best estimate for total growth.

**MILK:** Milk EPD reflects the milking ability of a sire's daughters expressed in pounds of calf weaned.

### CARCASS EPD

**MARB:(%IMF)** Marbling EPD is a predictor of the level of intramuscular fat and is derived using CUP ultrasound data and actual carcass data. Marbling determines quality grade.

**REA:** (Ribeye Area) Ribeye area is expressed in inches<sup>2</sup> and is a predictor of the area of ribeye muscle at the 12th/13th rib.

**CWT:** Is a predictor of transmitting ability for hot carcass weight.
